

The webbings are used for a temperature range up to 750°C. Glass yarns of variable counts. The fibre diameter exceeds 6µ (no health hazard).

The weaving-system may be selected according to the specific needs: Canvas single or multiply, with or without binding, atlas, twill, ect.

All webbings are manufactured with woven edges.

The belts may be coated with heat resistant raisins.

## OUR E-GLASS WEBBINGS ARE CHARACTERISED BY:

- Isolation fabric
- Spark protection
- Protection against abrasion
- Conveyor belt
- Fire protection

## PRODUCTION PROGRAM:

- Rolls up to 100m in length
- Yarn doubled with stainless steel or brass wire
- Coated with Graphite or Vermiculite
- Thickness from 1 mm up to 30 mm
- Hybrid fabrics
- Taylor made webbings according to customer specifications
- Maximum width 600 mm
